| Item # | DF/EDU-GNMK/FS. 1810-DZMDS10102 | Executive Code | Lab Furniture:GB/T 24820-2009 Metal Furniture:GB/T 3325-2008 |
| Dimension Specs | 1200*750*180MM | Ceiling Style | FreeSky Island Ceiling |
| Intended Use | | Intended Use | School Lab |

Product Description for Details

1. Ceiling Base Plinth Unit Structure:

Double Channle Steel Beam as the ceiling heavy duty base structure

2. Ceiling Base Plinth Unit Outshell: Depatchable

1mm high quality zinc cold rolled steel sheet, resin epoxy powder coated, Acid/Alkine resistance, Solvent resisting and corssion resistant;

3. Main Service Module Unit Structure:

1mm, 3mm, 8mm high quality zinc cold rolled steel sheet, Welding Frame to form the service space for the layout of air, water, power & media duct and fix the motor for swing arm units.

Resin epoxy powder coated, acid/alkine resistance, solvent resisting and corssion resistant;

4. Main Service Module Unit Outshell: Depatchable

Main outshell panel: ABS integrated body
Edge decorating unit: Alloy Aluminium shaped profile,
Resin epoxy powder coated, acid/alkine resistance, aolvent resisting and corssion resistant;

5. Lighting Units: 15W LED Lighting, 1200*85mm ABS facial covering panel

6. Swing Arm Units: 1200*750*180mm

3mm alloy aluminium panel as outshell, depatchable, resin epoxy powder coated
1) Down/up rod Unit: Motor with 24V low voltage direct current, remote intelligent control operation modle
2) power Sockets: 4 sets, GB standard integrated power sockets
3) Water supply & drainge unit: 2 water ports
4) Network Port

7. Functional Service Systems:

1) Water supply & drainge System
2) Air ventilation system
3) Power supply system
4) Lighting System

8. Accessory Parts: Soft water pipe with self lock ports

5. Optional:

1) OEM & ODM services are available
