Notes:

& Store paper flat in original packaging to avoid exposure to humidity and dirt. Keep away from direct sunlight and at room temperature.

& Printing set up instructions are provided as a guideline. Final results depend on the type of ink used and whether original or compatible.

& Some adjustment might be required to the printer driver in order to get the optimal results.

& In the very unlikely event that media does not feed in the printer, a gentle push as the printer attempts to pick up the paper might assist in feeding.

& Worn and contaminated feeding rollers on older printers may also effect feeding.
Rollers can be cleaned with acetone or alcohol to improve the feeding of paper
