Packing Details	Color sheet +Opp bag or Opp bag+ Foil bag / Color box			OEM or Yesion design

Notes:

- & Store paper flat in original packaging to avoid exposure to humidity and dirt. Keep away from direct sunlight and at room temperature.
- & Printing set up instructions are provided as a guideline. Final results depend on the type of ink used and whether original or compatible.
- & Some adjustment might be required to the printer driver in order to get the optimal results.
- & In the very unlikely event that media does not feed in the printer, a gentle push as the printer attempts to pick up the paper might assist in feeding.
- & Worn and contaminated feeding rollers on older printers may also effect feeding. Rollers can be cleaned with acetone or alcohol to improve the feeding of paper
