

**2 ~ 8°C Pharmacy Refrigerator
(Under Counter Type)**

Model:YC-45/55/75/105L

Advanced Cooling System

- Forced-air cooling circulate system ensure temperature recover rapidly and reliability, air-cooled chiller finned evaporator with unique circulation system design to ensure frost-free cooler environment.

Precise Microcomputer Temperature Control

- Microprocessor-based temperature controller, digital temperature display, temperature resolution is 0.1 °C
- Excellent refrigeration layout, 2°C~8°C inside adjustable
- Optional monitoring module and exclusive software to realize remote monitoring

Operating Security

- Alarms: High and low temperature alarms, sensor failure alarm, power failure alarm, door open alarm.
- Two alarm styles: buzzing, flashing
- Glass door with heating
- Two sensor design, can work separately if one damage
- optional thermal printer temperature recorder
- Optional USB data download functions

Humanized Design:

- Safety lock design prevents any abnormal door status
- Big screen display, easy to read
- Test hole optional
- Lights inside, make everything clear

Universal design

- Wide voltage available:187v~242v
- R600a Refrigerant, CFC Free

Parameter:

Product Name	Model	External Size(W*D*H) mm	Voltage (V/HZ)	Power (W)	Temperature Inside(℃)	Climate Type	Capacity (L)	N.W (kg)
2~8 ℃ Pharmacy Refrigerator	YC-45L	430*450*585	220/50	60	2~8	N	45	14.5
	YC-55L	470*450*707	220/50	70	2~8	N	55	21
	YC-75L	470*450*925	220/50	70	2~8	N	75	25
	YC-105L	505*525*925	220/50	80	2~8	N	105	28
